

# 300 Port Whitby WAVE

Effective November 8, 2021

The Whitby Autonomous Vehicle Electric (WAVE) shuttle is a pilot project to learn about how autonomous technologies can contribute to safer, more sustainable and connected transit and traffic operations. Please be advised that schedule changes and service disruptions may occur during the pilot.

The shuttle has a trained safety attendant on board who can manually take control of the vehicle at any time, if required.

Shuttle riders are required to wear a mask or face covering.

Vehicle capacities are limited to allow for physical distancing. Passengers connecting to DRT or GO Transit services at Whitby Station should consider using the Port Whitby On Demand service.

No fare is required to ride the WAVE shuttle. Please note that transfers are not available on the shuttle and regular fares will apply when boarding connecting DRT or GO Transit services.

Shuttle riders are required to use seatbelts. Because child seats and booster seats are not available, children under 8 years old who weigh less than 36 kg (40 lb) and stand less than 145 cm (4'9") may not ride. Passengers travelling with young children requiring child seats can contact 1-866-247-0055 to arrange a trip using DRT On Demand service (please indicate you are travelling with a young child).

If you require this information in an accessible format, please contact Customer Service at 1-866-247-0055. See [DurhamRegionTransit.com](http://DurhamRegionTransit.com) for more information.
